What People Are Saying About “48 Hours”...

“...I needed to make some huge changes in my life this year. I turned to “48 Hours” to help me push the big reset button and zone in on my passions and talents. We met at Kalien near Nashville, TN, which is the perfect backdrop to dream and re-energize. We talked a lot about the practical ways of fulfilling the dreams I have for my family and me. The time and money spent for this One-on-One weekend were well worth it. I’m still processing everything we discussed and the answers to the good questions Randy asked are still unfolding. I’ve never been happier, and I’ve put my talents and passions to work in creative ways that are generating multiple revenue streams and enabling me to live a much better, less-crazy life. Thanks Randy!”
